INNOVATION

IS HERE

Black is a color which results from the absence or complete absorption of visible light. It is an achromatic color, without hue, like white and gray. It is often used symbolically or figuratively to represent darkness. Black and white have often been used to describe opposites such as good and evil, the Dark Ages versus Age of Enlightenment, and night versus day. Since the Middle Ages, black has been the symbolic color of solemnity and authority, and for this reason it is still commonly worn by judges and magistrates.

# KING OF CERAMIC IS HERE

Black, the color of mystery, elegance, class, and sophistication. This color has a variety of hues and depths, unlike any other color. When looking to add style and class to your space, choose black tiles. This color is all about possibilities and potential. Thus, bring a lot of positivity and optimism in your space by choosing black-hued tiles for your offices, commercial spaces, bungalows, huge apartments, and villas.
